

2021 Summer Reading

Entering 7th and 8th grade

HAVE FUN!!!! Reading for enjoyment is a wonderful hobby.
Let's keep our children engaged in literacy all summer!

Dear Parents of students in Grades 6 and 7,

Because St. Benedict School recognizes the importance of reading, we are encouraging all students to read this summer. Exposure to and time spent on reading will positively affect your child's academic achievement.

Summer vacation is a perfect time to learn new things, practice reading, and enjoy books. It's true that books can go with you wherever you go!

Research shows that students who read over the summer are more likely to have higher scores on standardized test. Parents say summer reading helps their child during the school year mainly because it helps keep their kid's brain active and that reading requires constant practice.

You may find many reading list online for your child's reading level. The library is another good source in selecting books on their level. Miss Klinger has provided a recommended reading list.

As an incentive, students **entering 7th and 8th grade** who read at least **eight books** on their reading level will be rewarded with a swimming trip to the Cambridge City Pool next August. Parents, please use your judgment as to what would be good choices for your child. They may not list any books that they have read before. We prefer the books to be something not released as a movie.

The form below must be completed, signed by your child and you, and returned no later that Aug. 20th in order for your son or daughter to be eligible to attend. Swimming at the City Pool will take place Tuesday, Aug. 24th if weather permits. (Wednesday, Aug. 25th is the rain date.)

ST. BENEDICT SCHOOL 2021 SUMMER READING PROGRAM

BOOK	AUTHOR
1. _____	_____
2. _____	_____
3. _____	_____
4. _____	_____

(Please turn paper over)

5. _____
